Subject: RE: TGL & Region 6 - PTE Discussion

Good Morning Mr. Toups,

I hope you are doing well. Happy New Year!

I spoke briefly with Mr. Patrick Clark yesterday, and he mentioned the outstanding EPA calculations discussed on the interagency call. We actually had these complete the QA/QC review yesterday. (see the email below regarding schedule estimates)

I will have these PDFs sent to you and your team, and we can then have the detailed meeting previously discussed.

I appreciate the patience, and look forward to the review.

Kind Regards,

Tyler Abadie, P.E.

Subject: TGL & Region 6 - PTE Discussion
When: Thursday, December 16, 2021 2:00 PM-3:00 PM (UTC-06:00) Central Time (US & Canada).
Where: Microsoft Teams Meeting

Good Evening,

Thank you to everyone for participating in today's call with EPA Region 6. The TGL team appreciates the EPA's patience as we work through the feedback and apply it within our efforts. We will revise the calculations to include the OSV engines while loading, which was previously an indirect mobile source, and include additional back-up factors in our worksheet that indicate where the information originates.

We will try to get these revised and PDF'd before the next meeting request - either before or after the holiday.

Thank you again, and we look forward to continuing to work with the EPA to revise our Title V permit and submit a minor synthetic.

Happy Holidays,
Tyler
